Yes. I learned Japanese language, Japanese culture and life in Japan. In our class, teachers were kind to us, and it was easier to become closer to international students.

④What do you like about Toyama?

Our lives in Toyama are comfortable because it doesn't cost you very much. Also, there are a lot of historical houses and places which have Japanese-style beauty in the countryside. Snow in Toyama was also beautiful.

I like nature and Japanese style, so I recommend you to go to Tateyama and Yatsuo.

⑤What inconvenience have you met in Toyama?

The biggest problem is transportation. I was little troubled because it is long way to the station and there are few bus in Toyama.

After going back to my home country, I'm planning to go to graduate school and study in Japan after graduation.

⑦Do you want to come to Toyama again?

I want to enter graduate course at other university in Japan, but want to visit Toyama again for sightseeing.
