

Prof. Zou Yong received the B.S., M. S. and Ph. D. degrees in materials engineering from Shandong University of Technology, University of Toyama, Japan, in 1993, 1996 and 2002, respectively. He is currently a professor in the School of Materials Science and Engineering, Shandong University. His research interests include welding materials, surface modification, corrosion and protection of metals.

The papers published in collaboration with University of Toyama.
