

Information on Liaison Professor of University of Toyama-Japan

Name: FANTONG Wilson Yetoh

Nationality: Cameroonian

Institution: Institute of Geological and Mining Research

Activities

-Monitor and evaluate quantity of water resources (rain, surface and groundwater) in the 05 hydrological basins in Cameroon

-Monitor and evaluate chemistry and quality of water resources (rain, surface and groundwater) in the 05 hydrological basins in Cameroon

- Coordinate scientific works (limnology) of Lake Monoun in the Western Region of Cameroon. The lake exploded in 1984 killing 34 people and we do conduct regular monitoring of the lake to mitigate recurrence of the 1984 saga.

-Coordinate applied research on the suitability of water resources for agriculture in the Sahelian Northern Regions of Cameroon

-Chair of the scientific and technical committee for Global Water Partnership in Cameroon

- Evaluate the interaction between marine and continental waters along the 420 km long coastline of Cameroon

-Teach Integrated Water Resources Management, hydrology and hydrogeology at the University of Buea in Cameroon

-Establishment of technical cooperation between my home institution (IRGM) with JICA, University of Toyama-Japan, University of Hiroshima-Japan, and BGR-Germany.

My Co-authored scientific papers (about 51 articles)

1) Wilson Y Fantong, Gerginio Chouonna, Therese L. L. Jokam Nenkan, Alain F. Takoundjou, Ernest Chi Fru, Sarra Vassolo, Nelly M, Yaya Fodoue, Jean B.D Haman, Claire Caliere, Nbendah P, George E Nkeng (2023) Hydrogeochemistry of low agricultural soil yield in Sahelian and sub-tropical watersheds, Northern Cameroon. *Journal of African Earth Sciences*. 199:104823

2) Wilson Y. Fantong, Therese L. L. Jokam Nenkan , Pierre Nbendah, Sharon B. Kimbi, Ernest Chi Fru , Brice T. Kamtchueng , Alain F. Takoundjou, Alex R. Tejobou, Gabriel Ngueutchoua, Robert Kringel (2020). Compositions and mobility of major, δD , $\delta^{18}O$, trace, and REEs patterns in water sources at Benue River Basin—Cameroon: implications for recharge mechanisms, geo-environmental controls, and public health. *Environ Geochem Health* <https://doi.org/10.1007/s10653-020-00539-w>

My PORTRAITS

Measuring In Situ parameters during sampling of community drinking water sources

Activities

Inter University academic exchange agreement: Still to be establish between University of Toyama and Institute of Geological and Mining Research

MEXT scholarship cooperation: Yes, I coorporate with University of Toyama within the framework of the MEXT scholarship, by encouraging Cameroonian student to seek admission in the University of Toyama. Actually, there is one Cameroonian student pursing her PhD now at the University of Toyama, through my guidiance.

Accepting faculty members and students from University of Toyama:

Within the framework of a project “ SATREPS-NyMo” that ran from 2011 to 2016, with follow-up activities that continued till February 2024, I received the following Professors from the University of Toyama: Professor Akira Ueda and Professor Minoru Kusakabe.

Co-authorship of scientific papers with Researchers in the University of Toyama

I have co-authored eighteen (18) scientific articles with Researchers from the University of Toyama. See them hereafter listed.

- 1) **Fantong WY**, Kamtchueng BT., Ishizaki Y., Fru E C., Emilia Bi Fantong, Jude Wirmvem MJ., Aka FT., Nlend B, Harman D., **Ueda A**, **Kusakabe M**., Gregory Tanyileke G., Ohba T (2019). *Major ions, $\delta^{18}\text{O}$, $\delta^{13}\text{C}$ and $^{87}\text{Sr}/^{86}\text{Sr}$ compositions of water and precipitates from springs along the Cameroon Volcanic Line (Cameroon, West Africa): Implications for provenance and volcanic hazards.* **Journal of African Earth Sciences** 150: 12-22
